CITIZEN APPLICATION FORM

To qualify for citizenship you must be a current resident of Ontario

Dear Applicant:

Thank you for applying for citizenship with the Métis Nation of Ontario (MNO). Please note that due to the large volume of mail and application the Registry receives, all fully documented applications will be processed on a first come, first served, basis as time permits. Applications that are missing initial requirements will have their processing delayed until all documentation has been received. To avoid delays please ensure that you are providing ALL required documents to the Registry Branch, including the application form and your genealogical chart.

Please refer to the attached Requirements Checklist for documentation that **MUST** be included with the application.

Please Print Legibly

Explanation of Supporting Documents

Supporting documents are copies of primary records such as birth, baptism, marriage or death records, census records, fur trade industry records, early military service records or land scrip (Western Canada). If an obituary is used as a supporting document it must include the name of the newspaper as well as the date it was published. Each document must list the individual's parents and make the link between the child and the parents. In order to ensure your application is correctly assessed, please indicate your ancestor on each document by either highlighting or underlining their names. This helps greatly while assessing files as older documents can be very difficult to read.

Secondary documents can also be acceptable as supporting documents, if they are historical accounts or genealogical references published by reputable researchers. To be used, however, they must

include the title page and publication information. Though helpful in providing more information, secondary documents must be accompanied by primary documents. Providing solely secondary documents is not sufficient in establishing a link between generations. Marriage repertoires are no longer accepted as they have been found to include errors. Supporting documents must be provided to corroborate the information on your genealogical chart.

Please note that although useful to understand a family's history, documents obtained from the internet are rarely considered valid, unless they are copies of actual church or civic records (for example birth, death or marriage certificate). Documents obtained over the internet should also include references clearly indicating original resources.
