NOTES:

Page 1-15 (inclusive) of the 1881 census comprises the enumeration of 375 “Indians”.

Page 16-20 (inclusive) are transcribed below. There are a total of 119 individuals on these pages, bringing the Moose Factory census to 494 individuals as indicated on the bottom of page 20. A photocopy of pages 16-20 is attached.

- ☞ The “Occupation” field was left blank when it was not possible to positively identify the existence of a “-“, either because it was never marked by the enumerator, or due to the poor quality of the microfilm.
- ☞ [“?”] is entered when the poor quality of the document prevented me from positively identifying the enumerators mark. Record keeping practises strongly suggests the “ditto” would have been used.
- ☞ The age of children less than 1 year is entered as a fraction. For example, 6 months appears as 6/12.
