

# YEAR IN REVIEW

MNO 30<sup>th</sup> AGA

**Hannah Bazinet**

**Post-Secondary Representative**

## Introductory Message about work within the Region in 2022/23

This year has brought many successes for the post-secondary students within the MNO, thanks to the hard work of the MNO's Post-Secondary Education team. Students had the opportunity to participate in educational workshops aiming to assist with various funding applications, such as OSAP and Indspire. The Post-Secondary Education Support program was able to continue supporting our students in accessing post-secondary education. Across the province, our students were supported through programs like the MNO's travel support program, tutoring program, Infinite Reach Solidarity Network, and many more.

## Highlights and Key Achievements

I had the honour to join our nation's incredible Indigenous Education Circle volunteers for their two-day Aspiring to Our Highest Potential: Exploring Best Practices to Support Métis Students gathering in Toronto for rich discussion around the work going on around Indigenous student supports and curriculum in institutions across the province. I also had the amazing opportunity to join the MNOYC on their Expressions of Wellness Through Culture Winter Youth Retreat hosted at the Canadian Ecology Center in Mattawa ON where we connected with MNO youth aged 18-29 to reconnect with the land and culture.

## Meetings / Projects / Partnerships / Committee Participation / Other Activity

Attended regular meetings with the Post-Secondary Education branch throughout the year, with the goal of staying up-to-date and aware of the work being done within the branch and with our students across the province.
