

YEAR IN REVIEW

MNO 30th AGA

Name of PCMNO Councilor

Region / Position

Steven Callaghan

PCMNO Senator

Introductory Message about work within the Region in 2022/23

A great deal went on within the MNO this past year including the Plebiscite and Special Assembly. Having the reading in the Legislature concerning the self-government agreement was a great step.

Highlights and Key Achievements

A personal highlight was travelling to Alberta to hear Pope Francis pronounce the apology on Turtle Island. This was called for in the Truth and Reconciliation Commission and begins the long process towards healing. Much remains to be done, yet it must be done properly.

Meetings / Projects / Partnerships / Committee Participation / Other Activity

Speaking to groups like the Public Health Agency of Canada, The Magnetic North Conference, The Royal Canadian Legion, The Canadian Conference of Catholic Bishops about the situation of the Métis is a special privilege and responsibility I take very seriously.

Other Comments

The many housing projects being developed is timely and critically needed. It's heart warming to see this project taking shape.

I look forward to the development and writing of our own MNO Constitution.
